SUBJECT: DCID 1/16 Review Task Force [REDACTED]

1. The Intelligence Community (IC) Staff is currently in the process of rewriting DCID 1/16 and plans to submit the final draft for review in early September. DCID 1/16 establishes the policy and standards for the secure operation of automated information systems (AISs) processing intelligence information. The current DCID 1/16 was last revised in 1978 and is sorely outdated. The implementation of the requirements as proposed in the new document could have a significant impact on the Agency and its contractors. Representatives of the Office of Security and the Office of Communications were invited by the IC Staff to participate in preliminary discussions and draft reviews. [REDACTED]
